

Ready, Respectful, Resilient
Headteacher: Mrs T Price BA (Hons) MA Ed

10th September 2025

Dear Parent/Carer,

Year 7 Design & Technology – Project Materials Contribution

This academic year, Year 7 students will begin their Design & Technology journey with two creative and practical projects that introduce them to key design principles, tools, and materials. A strong focus will be placed on sustainability and responsible design throughout.

Students will be making:

- A wooden bottle oven tealight holder, inspired by local heritage
- An electronic nightlight project, designed with sustainability in mind

To support the cost of materials and electronic components for these projects – and to ensure students can take their completed work home – we kindly ask for a contribution of £4.

Payments can be made through the Arbor app in the school shop section. Please can payment be made by 1st October 2025.

If you have any questions about the projects or need help accessing Arbor, please don't hesitate to contact the school or get in touch with me directly.

Thank you for your continued support in helping us provide an engaging and enriching Design & Technology experience for all students.

Yours sincerely,

Mrs Parry

Head of Art, Design & Technology and Food Technology
