

Ready, Respectful, Resilient
Headteacher: Mrs T Price BA (Hons) MA Ed

5th September 2025

Dear Parent/Carer,

Year 8 Design & Technology – Project Materials Contribution

This term, Year 8 students will be taking part in a range of exciting and creative Design & Technology projects. These hands-on activities are designed to build their practical skills, encourage creative thinking, and deepen their understanding of materials and design techniques. Throughout the year, students will complete the following projects:

- An acrylic clock, inspired by the work of an abstract artist
- A wooden mobile phone holder
- A graffiti-style wooden door plaque

To help us provide high-quality materials for these projects, and to allow students to take their finished work home, we kindly request a contribution of £4. Payments can be made through the Arbor app in the school shop section. Please can this be paid by 1st October 2025.

If you have any questions, need assistance with payment, or would like to discuss the projects further, please feel free to contact the school or get in touch with me directly.

Thank you for your continued support in helping us deliver a rich and engaging curriculum for our students.

Yours sincerely,

Mrs Parry

Head of Art, Design & Technology and Food Technology
